

Illustrative modelling of numbers of osteopaths entering the three year CPD scheme and completing the CPD scheme and key dates for understanding how osteopaths are complying with the CPD scheme and opportunities to take mitigating actions

Table 1 – Key dates for understanding the transition of osteopaths from the old CPD scheme to the new CPD scheme and newly registered osteopaths integrating into the new CPD scheme on or after 1 October 2018

This first section of this table outlines key dates explaining when osteopaths in each registration renewal month will enter the CPD scheme for those osteopaths already on the register prior to and at 1 October 2018. This table comprises all osteopaths currently on the register.

The second section of the table provides information about osteopaths entering into the second three year cycle.

The last section of the table provides information about osteopaths joining the Register after 1 October 2018 who will begin their CPD cycle on the date that they join the Register and will conclude their CPD cycle two months earlier in accordance with the end dates below. (So this first CPD period will always be two years and 10 months requiring 85 hours of CPD across that time with 42.5 hours of learning with others – following the current pattern of the first CPD year.) This table will include the c. 220 osteopaths joining the register each year.

Figure 1: Pictorial representation of the implementation of the CPD Scheme for Osteopaths on the Register

This table illustrates osteopaths expected to be in each year of the new CPD scheme at any given point in time.

Table 2: Key dates for understanding how osteopaths are complying with the CPD scheme and opportunities to take mitigating actions

This table sets out key dates for gathering information and data about how osteopaths are engaging with the new features of the CPD scheme through the implementation of the three year cycle.

Date	Activity	Implication
1 October 2018	Day 1 of first three year cycle for first osteopaths	Registration renewal form for October 2019 (end of year 1 in new cycle) will be ready. Online CPD Diary to be ready for osteopaths to use if they wish to do so. Final CPD Guidance and PDR Guidance in place. Resources in place. Legislation in place.
Late 2019	Evaluation tracking survey	Evaluation survey will help us to gauge engagement with the CPD scheme during the period between the start of the scheme and the collection of the complete first year of registration renewal data set.
1 October 2019	All existing osteopaths have now started their first three year CPD period. A few are in year 2 but most are in year 1 of the CPD three year cycle.	First renewal forms received with new CPD declaration. Assurance and verification of declarations to commence. Key focus on awareness of CPD scheme, how to do various core elements, examples, case studies, sharing of stories and examples and identifying a peer.
1 December 2019	First registration renewal declarations received from osteopaths who completed their first CPD year in October 2019.	Over the course of the next year, we will build up a complete picture of progress within year one of the new CPD scheme through registration renewal declarations.

Annex C to 14

1 May 2020	<p>Majority of osteopaths (more than half) will have completed year 1 and so this will begin to give us a feel about compliance.</p> <p>Assurance and verification data will also support us with an idea about compliance.</p>	<p>Are osteopaths on track to comply looking at registration renewal data?</p> <p>Yes/No</p> <p>What actions should we be taking?</p>
Late 2020	Evaluation annual tracking survey	<p>Will help us to track self-reported engagement with the scheme on an annual basis as the scheme beds in. It is hoped that levels of compliance with the new features of the scheme will increase each year. We will also be undertaking ongoing feedback from a number of sources including mini-surveys, GOsC enquiries, web statistics etc.</p>
1 November 2020	<p>First complete set of year 1 registration renewal data available.</p> <p>A few osteopaths will be entering year 3 and so will really need to focus on getting all the features of the new scheme completed including the peer discussion review.</p>	<p>Are osteopaths on track to comply?</p> <p>Yes/No</p> <p>What actions should we be taking?</p>
1 May 2021	<p>Majority of osteopaths will have completed year 2 and so this will give us a feel about compliance.</p> <p>Most osteopaths will be focussing on peer discussion review.</p>	<p>High levels of activity related to supporting osteopaths to identify peers, complete new features and do peer discussion review.</p>
1 October 2021	First set of registration renewal data for osteopaths who have completed their first three year CPD cycles due (Numbers will be small)	

Annex C to 14

	Complete set of data for year 2 compliance available.	
Late 2021	Evaluation annual tracking survey	Will help us to track self-reported engagement with the scheme on an annual basis as the scheme beds in. It is hoped that levels of compliance with the new features of the scheme will increase each year.
By March 2022	Most osteopaths will be completing their first peer discussion reviews	High level of support for osteopaths about how to undertake peer discussion reviews and providing advice and guidance.
1 October 2022	All osteopaths on the register from 1 October 2018 (and who have remained registered for three continuous years) will have completed their first peer discussion review	Review of peer discussion review learning and adaptation of guidance and resources etc.
Late 2022	Evaluation annual tracking survey	Will help us to track self-reported engagement with the scheme on an annual basis as the scheme beds in. It is hoped that levels of compliance with the new features of the scheme will increase each year. In this final year of the initial three-year cycle of the new CPD scheme we would expect near 100% compliance.
