

Good morning,

Please find attached a petition requesting the temporary suspension of fees for registrants. There is a lot of anxiety among registrants at the moment, one cause of which is sudden loss of income. Some colleagues are facing the stark decision of whether to pay registration fees or buy food for their families.

While I understand this is a challenging time for all organisations and that you will be busier than usual, colleagues regard this as an urgent issue so I would greatly appreciate a response as soon as possible.

Warmest regards,

Luc Woods
